

# Evolution™ System 80% Gas Furnaces

Models 880T, 881T

Control and Smart Sensor  
sold separately

## Benefits of an EVOLUTION SYSTEM

### Efficient heating you can rely on

80% Annual Fuel Utilization Efficiency (AFUE). AFUE is a measure of how efficient your furnace is at converting the energy in fuel to heat.

### Maintain consistent comfort

System automatically adjusts to conditions, reducing temperature and humidity fluctuations.

### Easy-to-use control

Manage your entire home's comfort with full-color touch screen, mobile app<sup>1</sup> or voice commands.<sup>2</sup>

### Customizable

Tailor your system to your lifestyle with occupancy sensing, zoning and remote-access technology.

### Monitor system health

Receive reminders for filter changes and tune-ups. Your system can also automatically alert your dealer if it needs service.

### Rest easy with a long warranty

Ten-year parts limited warranty and lifetime heat exchanger warranty when registered on time.<sup>3</sup> Red Shield™ 10-year unit replacement warranty (heat exchanger failure only) upon timely registration.<sup>4</sup>

# Outstanding comfort **WHATEVER** the temperature outside.

## Perfect Humidity™ Technology

Helps ensure great summertime dehumidification when system components include multi- and variable-speed cooling products.

## Hybrid Heat® Dual-Fuel System

A dual-fuel solution that combines an electric heat pump with a gas furnace. This allows the system to choose the most efficient fuel source while delivering year-round comfort and efficiency.

## featured TECHNOLOGIES

Complete Evolution systems feature these exclusive advancements.

## Fan On Plus™ Technology

Helps improve comfort all year long by allowing you to select different fan speeds during continuous fan operation.

## Perfect Heat® Technology

Continually monitors and adjusts performance for multi-stage furnaces using current and past conditions.

## SmartEvap™ Technology

Helps prevent unwanted humidity from re-entering your home when paired with a compatible thermostat.

## Gain more control with a complete EVOLUTION SYSTEM

With highly advanced communication at its core, a complete Evolution system gives you total control over your home's temperature, humidity, ventilation, air quality and zoning.

### EVOLUTION CONNEX™ SYSTEM CONTROL

Capable of managing a complete home comfort system including humidity, ventilation and zoning.

### EVOLUTION AIR CONDITIONER

High-efficiency cooling power delivering whole-home comfort and energy savings.

### EVAPORATOR COIL

featuring  
**VERTEX™**  
Technology

Matches to the proper outdoor unit to provide top cooling efficiency and years of reliable service.

### AIR PURIFIER

Our patented Captures & Kills® technology treats 100% of the air flowing through your system.\*

### HUMIDIFIER

Alleviates dry air by adding moisture.

### VENTILATOR

Transfers heating and cooling energy to the incoming fresh air.

\* The Evolution™ air purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Evolution air purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the MERV 15 Evolution filter to be inactivated at 99%. Learn how it works at [Bryant.com/purifier](http://Bryant.com/purifier).

# BRYANT HEATING SOLUTIONS

There is a Bryant product for almost any heating and cooling need or budget.  
Only your Bryant dealer can help you decide which is right for you.

	<b>BEST</b> <b>EVOLUTION™</b> SYSTEM	<b>BETTER</b> <b>PREFERRED™</b> SERIES	<b>GOOD</b> <b>LEGACY™</b> LINE
<b>Heat Energy Management</b>	<b>Two-Stage Operation (880T/881T)</b> Automatically chooses between low and high settings to maintain more consistent temperature and efficient operation.	<b>Two-Stage Operation (820T, 821T)</b> Automatically chooses between low and high settings to maintain more consistent temperature and efficient operation.  <b>Single-Stage Operation (820S, 821S)</b> Helps keep operating costs low all season long.	<b>Single-Stage Operation (810S, 811S, 800S, 801S)</b> Helps keep operating cost low all season long.
<b>Humidity Management</b>	<b>Perfect Humidity™ technology</b> This proprietary feature leverages multi-speed systems to enhance humidity removal.  <b>SmartEvap™ technology</b> Reduces indoor humidity by reducing the amount of condensate reintroduced into the air after dehumidification cycles.	<b>SmartEvap technology</b> Reduces indoor humidity by reducing the amount of condensate reintroduced into the air after dehumidification cycles.	<b>Basic humidity management</b> Provides basic humidity control during cooling operation.
<b>Comfort Management</b>	<b>Evolution™ Connex™ System Control</b> Our most advanced Wi-Fi®-enabled control, it can maximize efficiency by communicating with components of a complete Evolution system.  <b>Communicating Variable-Speed Blower</b> Communicates with the system to automatically adjust airflow, maintaining outstanding comfort through consistent temperatures and advanced humidity management.	<b>ecobee for Bryant Smart Thermostat</b> Wi-Fi-enabled smart thermostat learns your schedule for greater efficiency and comfort.  <b>Variable-Speed Blower</b> Increased speed options allow for optimized airflow at installation and improved humidity control for excellent comfort.	<b>Bryant Smart Thermostat</b> Wi-Fi-enabled smart thermostat that offers convenient and connected comfort control.  <b>Fixed-Speed Blower</b> Traditional, reliable performance.
